

Mission Impact Project Opportunities with Annual Conference!

Many of you won't be attending Annual Conference this year, but you can still be part of the ministry work happening there. We're inviting anyone in our connection to support our Mission Impact efforts:

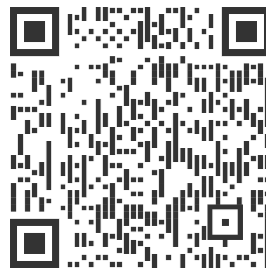

UMCOR menstrual kits make a real difference for people and are essential for restoring dignity, health, and equity to vulnerable populations during disasters, crises, and economic hardship. These kits help by providing pads, tampons, and other hygiene items so individuals, especially students, don't

have to miss school, work, or daily life. We are looking to support many who may be facing challenging times, and we invite you to be a part of this work. Even from home, you can help us reach our goal of 1,000 assembled kits.

Your support ensures that volunteers at Annual Conference have everything they need to assemble these kits and get them into the hands of people who truly need them.

You can join in by:

- Purchasing kit items online using this QR code. Everything you buy will be shipped directly to the Mission Barn for this project.
- Or you can provide a financial gift to the church, and Pastor Clint will purchase the items with the help of your donations. If you want to donate directly to the church, please mark your donation **KITS – Disc Fund** and we will use your generous donations to support this program.
- Your support of this program is welcome at any time, but to ensure items are available for the Annual Conference, donations should be made by **TODAY...May 17th**.

Your support is greatly appreciated!
